This salary survey was conducted in order to provide an overview of the job market and average salaries in Astana. In order to keep the survey manageable yet meaningful, only the most in-demand positions are displayed (you can request a more detailed salary survey from us to fit your needs).

What becomes obvious is that the most sought for positions among employers are Chief Accountants.

In general, salaries (especially for executives) in Astana are on the rise. At the same time, mostly due to this phenomenon, it is difficult to state a definite salary figure as the pay for most positions can vary considerably depending factors such as the size of the company and the level of experience of the employee,

especially among the top ranks, wherefore the salaries listed are variable estimations.

The first column displays the salary of the major part of employees. To give an idea of the earning possibilities in Astana, we introduced a “Top Earners” column, displaying an average salary level at the top end of the job market. Top Earners usually have a higher level of education and specialize in higher technologies or work for international companies.

More and more large, internationally operating companies are entering the Astana markets. People providing the needed skills in the higher positions of these companies are rare and thus very well paid.

Methodology:

In order to provide our clients with up-to-date and reliable salary information we have relied on extensive research from a diverse pool of professional sources. The figures were accumulated from online surveys and personal interviews with participants consisting of executives and specialists working in Astana, representatives of leading employers, job candidates, career portals, and estimations by Awara's experienced specialists.

The salary estimate quotes in the tables to follow portray average monthly gross salary ranges which do not include bonuses. The figures are presented in RUR and KZT.

Spheres studied for the survey:

- Sales
- Finance and Accounting
- Legal support (In-house)
- Legal support (Law firms)
- IT
