## Methodology

This salary survey was conducted in order to provide an overview of the job market and average salaries of Engineers in the major Russian cities.

What becomes obvious is that the most sought is the positions of Accountant in Moscow and St. Petersburg.

In general, salaries in almost all of the selected cities are on the same level, as they were before devaluation of rouble. At the same time, mostly due to this phenomenon, it is difficult to state a definite salary figure as the pay for most positions can vary considerably depending factors such as the size of the company and the level of experience of the employee, especially among the top ranks, wherefore the salaries listed are variable stimations.

In order to provide our clients with up-to-date and reliable salary information we have relied on extensive research from a diverse pool of professional sources. The figures were accumulated from online surveys and personal interviews with participants consisting of executives and specialists, representatives of leading employers, job candidates, career portals, and estimations by Awara's experienced specialists.

The salary estimate quotes in the tables to follow portray average monthly gross salary ranges which do not include bonuses. The figures are presented in RUR.

## Only One is Unique – Awara

**Awara** offers a wide array of advisory services for strategic business development, establishment and investment, and the implementation and execution of our advice, covering all areas of corporate management, management consulting, law, accounting, audit, financial administration, IT-solutions, recruitment and executive search, HR services, training and development, marketing and market research.

With our international background and superior knowledge of local market practices, we possess the solid experience needed to provide quality services in Russia and CIS, and we are also currently expanding rapidly throughout Asia! We assist international and local organizations and individual entrepreneurs alike.

### Recruitment and Executive Search, and HR Services 16 % Recruitment Fee – Permanently for all positions!

Awara is the leading recruitment and executive search and HR services provider in Russia and the CIS, and additionally we offer a complete portfolio of business administration services. Our searches are always case-by-case tailored to multinational large and middle-sized companies and entrepreneurs across industries.

Our method is always direct search. We have a special competitive edge in finding the best and most motivated people. As a leading social media and Internet recruitment company, we have the largest pool of available candidates in terms of quality, quantity, and speed of candidate placement. We also make use of all available sources in our recruitment process: our wide network of contacts, headhunting, internet, social media, job portals, trade fairs, talent scouts, schools, etc.

Our secret formula is the great amount of applications we receive from active job hunters combined with our direct search approach, which means that we apply headhunting methods to each recruitment assignment. We are ready to fill vacancies quickly.

We now permanently offer recruitment for a success fee of 16% of the estimated gross annual compensation of the hired person, and the fee can be fixed in advance so that it is independent of the actual salary. The offer covers all of our quality services of staff recruitment and all segments of candidates: executives, managers, middle management, specialists and support staff. The client is invoiced only upon a successful recruitment, meaning that we charge no retainer fees. We ensure a quality service for employers at affordable rates, more choices for job seekers and faster placements.
